Language Arts: The last unit in our first EL module is a Monologue. This week we will learn the process of planning and writing a monologue in the voice of a character from Esperanza Rising. This activity proved to be a real treat last year and I am excited to see what the students come up with this year!

Science: Ecosystems is the new unit for Science this quarter. This week we will begin to consider the relationships among living and nonliving things in the environment. We will look at aquatic ecosystems, the rain forest, deciduous forest, and grasslands.

Math: Our fractions unit has begun! This week the students will multiply fractions times whole numbers using various strategies. We will also learn how to multiply fractions by fractions and interpret fractions as division. There will be a quiz on Friday or Monday.

Important Dates
